

# MEET RODNESHA HILL

## MSJC Job Developer & Placement Coordinator

As I embarked on my academic journey, I encountered mentors who ignited the flames of ambition and guided me through. I started at a young age interested in helping others build on their skills to help them find their passion. This passion has led me to continue to pay it forward, inspiring and guiding the next generation of dreamers to reach for the stars and turn their sweetest dreams into reality. I have accomplished earning a bachelor's degree, master's degree, and two career advising certifications. I am currently an ambassador for the Menifee Valley Chamber of Commerce as well as the Vice President of the South Region, for the California Placement Association.

With the support of mentors like Professor Lewis, VP Joyce, Dean Harvey, Tonya Burke, and my mom, I was able to land my dream job working with students at MSJC. I have the ability to impact students since 2022 and this has been one of my greatest accomplishments. By having unwavering support with my mentors, I was able to complete a certification through National Career Development Association and now enrolling into a doctoral program. Students, I was able to do this through perseverance and when you feel like you can't make it remember that you have someone advocating for you and providing support throughout your academic and career journey. I stand as a testament to the transformative power of mentorship and the unwavering support of loved ones.
