

MSJC DMS PROGRAM

ADDITIONAL INFORMATION www. msjc.edu/alliedhealth

CAAHEP ACCREDITATION What does that mean?

- Our program is recognized as meeting the high expectations of the Joint Review Commission of Diagnostic Medical Sonographers
- The students graduating from MSJC will be more employable because they graduated from a CAAHEP Accredited school
- Students are able to take board exams 60 days prior to graduation and earn their ARDMS licensing, which makes them more employable at graduation.

The Commission on Accreditation of Allied Health Education Programs, upon the recommendation of the Joint Review Committee on Education in Diagnostic Medical Sonography (JRC-DMS), verifies that the following program

Diagnostic Medical Sonography - General Concentration Mt. San Jacinto College-Menifee Menifee, CA

is judged to be in compliance with the nationally established standards and awarded continuing accreditation on May 21, 2021.

Glen Mayhew, DHSc, NRP

President, CAAHEP

Christopher Kramer, RDCS, RASE

Chair, JRC-DMS

Submit ALL OFFICIAL, college transcripts to the MSJC enrollment services

Submit official transcripts from all colleges and/or universities
 attended to <u>officialtranscripts@msjc.edu</u>. Transcripts must be sent
 directly from Colleges or Transcript Vendors.
 Transcripts forwarded by students will be considered unofficial.

NOTE: all foreign transcripts including high school documentation, must be evaluated by the Transcript Evaluation Services, Los Angeles, or the American Education Research Center, West Covina and then evaluated by an MSJC evaluator for course equivalency – SEE COUNSELING OFFICE and website= NACES.org

What if I have not finished a required course by December 1st?

 *Turn in your transcript evaluation even if you have not finished Fall semester! <u>Click Here For</u> <u>Transcript Evaluation Form</u>

 When the class is finished, and your grade is recorded mid December- the final grade will be entered on your transcript. All applicants to the Diagnostic Medical Sonography Program must first enroll for admission to Mt. San Jacinto College. Obtain a student number on website.

Students are required to meet with a counselor to submit a <u>Nursing and Allied Health</u>

<u>Evaluation Request</u>. This request <u>must be completed between July 1 and December 1</u> to be eligible to apply for the program beginning the following Fall semester. *A copy of self service "program notes" must be submitted with the application.*

Program requirements (prerequisite courses) must be completed with a GPA of 2.5 and grades of "C" or better. *If you are completing course work in the Fall semester, you will turn in transcript evaluation by due date and then obtain & submit a new transcript with final grades for the March application period.

Correspondence regarding application with students will be via personal and MSJC student e-mail only.

*Change in address/phone must be submitted to the Nursing Office through "Student Support Hub". Your admission will be compromised if you are unable to be reached.

All Students must have one of the following: Proof of High School Diploma, G.E.D., California Proficiency Exam, or College Degree.

All Students must have a Social Security Number, ITIN number, or Student Visa.

Once accepted into the DMS Program, there will be 2 years of course work, including 3 semesters of clinical training= 32 hours a week and classes one day a week. **Clinical training may be varied with shifts possible on days, evenings and weekends. Clinical sites are as far away as Palm Springs. You will need appropriate transportation to your clinical site. When planning expenses students should be aware they may have to limit their hours of employment due to extensive DMS Program requirements.

See the MSJC Financial Aid Office help with loans, grants, scholarships.

ALL STUDENTS <u>MUST</u> GRADUATE WITH A.S. DEGREE IN <u>DIAGNOSTIC MEDICAL SONOGRAPHY.</u>

*IT IS HIGHLY RECOMMENDED THAT ALL A.S. DEGREE REQUIREMENT COURSES

BE COMPLETED PRIOR TO ENTERING THE PROGRAM* (Without AS course completion, you

will be able to take registry licensing exams, but not be able to aquire your program

completion & thus, not able to obtain RDMS license until course work is done)

TEAS Test (Test of Essential Academic Skills)

Students must pass the TEAS VI or VII Test with a 70% or higher. Students are allowed 2 attempts per application period with highest score accepted. It is the same test for both Nursing and Allied Health.

This test evaluates basic academic skills in reading, math, science, English, and language usage. See handout or website (Note: nice to see they have DMS listed under Category R along with Biomedical engineers and Radiation technologists;)

ATI website

 Register by creating an account online through ATI Testing:

https://www.atitesting.com/home.aspx

 You will need to take the exam at a testing center. (MSJC does not to proctor TEAS exams on campus).

Complete Application checklist:

- 1. Copy of the nursing and allied health evaluation email that you received stating eligibility to apply and a copy of Program Notes that states your GPA, general ed. completion, etc.
- 2. Copy of High School Diploma or GED or California Proficiency Exam or College Degree
- 3. Copy of In-person or Live, on-line DMS Workshop signed acknowledgement or Self-review of DMS Online Power Point presentation with self-acknowledgement.
- 4. COMPLETED DMS APPLICATION
- 5. Copy of TEAS test results
- 6. Copy of any Medical licenses, Certificates, or direct patient care job description and proof of employment.

A reason for this workshop...

Often prospective students explore a sonography program hoping to fulfill their dream of taking cute baby photos for a pregnant mother.

This can be part of your daily career demands, but there are also the demands of a healthcare worker who must care for people both physically and mentally.

What does a Sonographer (really) do?

 "Really the only somewhat bothersome thing about this practice is how misunderstood it is, it may look like all we do is take pictures, but it's not as easy as it may seem. We can detect gallstones, cysts, masses, cancer, and [scan for] abnormalities with a fetus."
