Students can get a jumpstart on their BSIT

While pursuing an Associate Degree in Technology with one of our alliance community colleges you can get a jumpstart on your Bachelor of Science in Information Technology (BSIT) degree at the University of Phoenix. Through our Concurrent Enrollment Program (CEP) you can complete the following four upper division courses while finishing your Associate Degree at your college.

– **NCT/362** – Fundamentals of Networking*
– **BSA/375** – Fundamentals of Business Systems Development*
– **BSA/385** – Intro to Software Engineering*
– **CMGT/410** – Project Planning and Implementation

You will also be eligible for our Tuition Guarantee Program which will freeze your tuition at $350 per credit hour while you complete your BSIT program.

How it works

You enroll in the above classes at University of Phoenix between semesters at your community college. You may begin after the first, second, or third semester, and depending upon when you start, can complete up to 4 upper division courses.

You will be enrolled in these single courses with other associate degree completers, providing a built-it support system. And upon completion of your associate degree, apply to University of Phoenix and transfer your credits into the BSIT program under our current articulation agreement with your community college.

Explore the value of our Concurrent Enrollment Program.

The CEP program sets students to be on track to:

Easily transfer into the University of Phoenix BSHM program

Get a jumpstart on their bachelor's degree during semester breaks

Lock in tuition for the duration of the program

Students enrolling in CEP will be assigned a team of advisors that can assist them with questions about enrollment, academics and finances. They can also take advantage of our full suite of University resources.

About University of Phoenix

University of Phoenix is innovating to help working adults move efficiently from education to careers in a rapidly changing world. Flexible schedules, relevant and engaging courses, and interactive learning can help students more effectively pursue career and personal aspirations while balancing their busy lives. University of Phoenix serves a diverse student population, offering associate, bachelor's, master's and doctoral degree programs from campuses and learning centers across the U.S. as well as online throughout the world. For more information, visit **phoenix.edu**.

[Please see reverse side for important information]

Get a jumpstart on a BSIT program that features:

- Instructors in the College of Business and Information Technology Professions average over 29 years of real-world experience and 15+ years of teaching experience
- Customize your degree to your career goals: earn a business (or other) certificate at the same time.
- No application fee, no SAT or GMAT test requirements, and we'll even request your prior college transcripts for you, at no additional cost to you.
